

# Shape the Future of Medicine

MSc · PhD · Postdoctoral Research Opportunities

**Technion – Israel Institute of Technology**  
Ruth & Bruce Rappaport Faculty of Medicine

## ADVANCED STUDIES THAT MAKE A REAL IMPACT

Looking for MSc, PhD, or postdoctoral position where your research truly matters?  
Want to conduct world-class science that connects directly to patient care?  
Searching for a place where you are supported, challenged, and inspired?

Welcome to a unique environment where innovation, collaboration, and real-world impact come together.

## EXCELLENCE REWARDED

Our International Excellence Program offers generous scholarships, financial support, and a smooth onboarding process to help outstanding students thrive from day one.

## WORLD-LEADING RESEARCH. INSPIRING PEOPLE

Join a faculty that brings together globally recognized scientists, including Nobel Prize laureates, alongside a new generation of rising researchers. This rare combination of experience and fresh thinking creates a dynamic, collaborative culture where bold ideas thrive and breakthroughs happen.

## WHERE MEDICINE MEETS TECHNOLOGY

As part of the Technion, Israel's leading institute of technology, you'll benefit from a powerful interdisciplinary ecosystem. Our research integrates: **Medicine • Engineering • AI • Big Data • Neuroscience • Immunology • Cancer • Regenerative Medicine • Physiology • Microbiology and more.**

Here, disciplines converge to push boundaries in ways that are not possible anywhere else.

## FROM LAB TO LIFE: REAL CLINICAL IMPACT

With direct access to a leading hospital campus across the street, your work does not remain theoretical. Our discoveries translate rapidly, from the lab to clinical application to real patients. This unique connection gives your research meaning, urgency, and tangible impact.

## A CAMPUS LIKE NO OTHER

Located in the vibrant Bat Galim neighborhood in Haifa, right on the Mediterranean coast, our faculty offers an exceptional setting:

- The only medical faculty in Israel by the sea, just steps from the beach
- A dynamic, young, and growing neighborhood with lively cafés, bars, and cultural life

## YOU ARE AT THE CENTER

We invest in our students through personalized mentoring, a supportive academic culture, and spaces designed for well-being. The small details reflect this philosophy, like our fully equipped music room with electric guitars, drums, and top-quality gear, creating space to recharge, connect, and thrive.

## YOUR FUTURE STARTS HERE

Work with world-class researchers • Explore interdisciplinary innovation •  
Make a real clinical impact

## HOW TO APPLY:

1. Identify a research lab and contact a principal investigator [here](#)
2. Interview with the faculty admissions committee

**The faculty admissions committee will automatically consider you for the International Excellence Program, which provides:**

- Travel support of approximately NIS 6,000
- Generous monthly stipends for MSc (NIS 5,500–6,500) and PhD (NIS 7,000–9,000) students. The stipend level depends on the stage of progress toward the degree and academic considerations
